

THEKGA

WOVEN BY NATURE

Water

Hyacinth

Our Story

THEKGA means to Support in Sepedi, an indigenous language to Limpopo, South Africa.

Inspired by the beauty of nature, THEKGA products are made using Alien Invasive plant fibres, primarily Water Hyacinth, Natural and Eco-friendly raw materials.

Crafted by our passion for design and innovation , THEKGA products boost a range of hand woven crafts, and eco-friendly products. Stricken by our love for community development, THEKGA products are made by the women and talented artisans of the Blesbokspruit community in South Africa, a modest community within the Ekurhuleni Metropolitan Municipality.

THEKGA is a collective of women on a mission to change both their world and the rest of the world, one small step at a time.

Alien Invasive plants need to be removed, and so does plastic waste. Poverty stifles growth and must be eradicated. What better way, than to educate hands to weave the waste? An oasis through innovation- a balance that facilitates absolute change.

Our Products

Makgapa a Thekga

“Makgapa a Thekga” means Baskets of support (Thekga).

The range was born from an opportunity to contribute towards water conservation, uplift communities, while simultaneously paying homage to our African ancestry who bestowed ancient wisdom and indigenous technology upon our team of vibrant creatives to produce stylish contemporary, water hyacinth crafts.

Materials Used

Water hyacinth : An Aquatic Alien invasive plant, manually harvested used for weaving.

Recycled Iron: Used for structural reinforcement.

Recycled Plastic Bottles (rPET): Used for fabric lining

Genesis

The Origin: Imagine the birth of creation, akin to the first sample of the lunar crust, the Genesis Rock. Our Genesis collection marks the inception of Thekga's Water Hyacinth creations, boasting a range of functional baskets that embody innovation and elegance.

Multifunctional Basket

Picnic Basket to carry food, crockery , cutlery, drinks etc.
Storage Basket for linen and towels in the bathroom,
bedroom and kitchen. Clip-on fabric lining allows it to
store bread too.

Storage Basket

This beautiful natural weave hold- all can be used for paper waste, storage of small towels, socks and underwear. Removable Clip-on fabric converts into a planter basket.

Mini Storage Basket

This beautiful natural weave mini hold- all can be used for paper waste, storage of small towels, socks and underwear. Removable Clip-on fabric converts into a planter basket.

Eureka

Discover Royalty: Inspired by the majestic Zulu traditional Hat, symbolizing royalty and maturity, our Eureka collection pays homage to the iconic Eureka Diamond, South Africa's first diamond discovery. These pot plant baskets exude regality and grace, elevating any space with their charm.

Amaya

Embrace Nature's Grace: Named after the Goddess of nature, Amaya, who embodies the serene melody of night rain, this collection of pot plant covers invites you to celebrate the beauty of nature, offering a tranquil sanctuary within your home.

Luna

Illuminating Elegance: As the divine personification of the moon, Luna inspires our collection of woven pendant lights, meticulously crafted to infuse your living spaces with a celestial glow, radiating sophistication and charm.

LUNA

Aura

Breathe Lightness: Just as the Titan of the breeze, Aura, brings forth the fresh, cool air of the early morning, our Aura collection offers dining ware as light as a soft breeze. Crafted from FSC certified trees, these sustainable products are not only chip-resistant and anti-bacterial but also reusable, embodying a commitment to both elegance and environmental responsibility.
